EXPO: Showcase your business, Fly-In Fun

Join us at the Savannah/Hardin County Airport for an informative Open House Fly-In, Cruise-In and Business Expo on Saturday, October 5.

The 2013 Business Expo brought to you by the Hardin County Chamber of Commerce is set for a fun-filled day from 10 am until 4 pm. This event provides a venue for development of business-to-business relationships and creates consumer awareness of the goods and services offered in Hardin County by Chamber members and guests. The main expo stage is located in the large north hangar and other booths and fun activities will be all along the runway apron.

Besides the Expo Palooza, exhibitors and attendees will enjoy the Airport Open House and Annual Fly-In, where **pilots are invited to "fly-in" for a visit** and show off their planes. Aircraft and displays to be featured and scheduled include a Black Hawk helicopter, I SR Group display, and National Guard display. In the south hangar, is an Aircraft Museum and near the rest area tent will be the National Guard climbing wall for the adventurous. Exciting for this year is your opportunity to fly in a vintage plane! Visitors may ride in vintage planes including a 1929 Curtiss-Wright Travel Air for a fee.

Also check out and cruise in with the

Shiloh Area Street Rodders! Antique cars on display! Rock n Roll music! Concessions!

The event is open to the public and invites you to learn about our airport while enjoying food, music, fun for the **kiddies...and big kids too!** **Rain date is Sunday, October 6.** Savannah / Hardin County Airport is located at 100 Airport Lane, off Hwy 226 in Savannah, Tennessee.

Future looks bright for unmanned aircraft development. ISR Group partners with Tennessee and Alabama leaders to develop site facility in Hardin County. ISR recently hosted an event for community regional and state leaders, and the media. The site is in the running for a slot as one of 6 sites to be selected nationally by the FAA by the end of 2013 to be approved as an Unmanned Aircraft System Test Site. UVA's are not just used by the military, but for farming, environmental research and emergency technology.

ISR continues to grow and advancing our workforce in Hardin County!
